

Dear CONTAINEX customer,

**"Some see the past. We see the future."**  
With this guiding principle, CONTAINEX celebrates its 40th anniversary in November 2021. Our **future** course remains set on **continuity, innovation and growth**.

The **cover page** of this anniversary issue takes a look at the company's past and origins.

**Page 2** gives an overview of our product innovations, which guarantee "space at once" for every need.

The motto of **page 3** is "Quality – made in Europe" – and it has been for 40 years!

The **back page** deals with digital transformation and how CONTAINEX has set the course for the future, today.

Are you already aware of our Buy-back guarantee? Our "tip" tells you more!

On behalf of the management

Günter Ringhofer

## 40 years of CONTAINEX

CONTAINEX's journey from its origins to becoming Europe's leading provider of mobile space systems is a success story. The pioneering work was underway in the 1980s.

The foundation was laid in 1979, when sister company LKW WALTER created a new business area: the trade with used shipping containers. In 1981, this business area became a separate company - and CONTAINEX was born. In 1983, the new company brought portable cabins to Austria for the first time. What started as a one-man band was destined to expand rapidly. In 1992, a second branch was opened in Kufstein, with new markets opening up throughout Europe and overseas. CONTAINEX remains true to the motto "space at once" to this day.

Beginnings as a container depot

Office building Wiener Neudorf, 1983

"Rent a Blue Box Festival", 1993

## Competition

In which year did CONTAINEX become a separate company?

If you have read the CONTAINEX newsletter carefully, the solution is very easy! To participate in the competition, simply open the form via QR code or [www.containex.com/competition](http://www.containex.com/competition) and fill it in.\* The first five correct entries will win a highquality sommelier set with "40 years of CONTAINEX" engraved on it.\*\*

\*Entry deadline is 12/ 31/2021

\*\*Employees of the companies of the WALTER GROUP (incl. CONTAINEX production plants) and their relatives are excluded from participation in the competition

# "Space at once", for every requirement

Creativity, passion and the ability to implement are crucial to product development. This is the only way to continuously create new products and equipment options for a wide variety of uses.

With the needs of our customers in mind, the original "blue boxes" quickly developed into a diverse product portfolio: from the multifeatured CLASSIC Line to the functional BASIC Line and the PLUS Line for the most demanding requirements! By combining with further module types, individual and flexible space solutions can be achieved. Whether as an office or sales room for a wide range of industries, a nursery, a school, accommodation or practical material storage: 40 years of expertise ensure the right space solution for every need. Room modules can be purchased or rented from an extensive in-house inventory of over 40,000 units. Additionally, our numerous CONTAINEX hire partners have a rental fleet of over 120,000 units. Prompt availability and fast delivery are guaranteed due to more than 250 depots all over Europe.

High-quality storage containers, e.g. as a practical material storage unit

CLASSIC Line – the all-rounder, ideal as an office, a shop, accommodation, etc.

PLUS Line – the space solution for the most demanding requirements

Sanitary facilities that use fresh water instead of chemicals – ideal for both small and large events

Terrace container module with timber cladding, Wiener Neudorf show park (AT)

Production according to strict environmental and quality standards – ARCONT production plant, SI

## "Made in Europe" quality

It is a major concern to us as a company to act in such a way that the environment is protected in the best possible way. That is why we attach great importance to the lowest possible energy consumption and to CO<sub>2</sub>-reduction.

From the very beginnings, CONTAINEX was focused on "Made in Europe" quality by manufacturing in its own European factories according to the strict environmental seal set by "GREEN technology". We now save over 50,000 tonnes of CO<sub>2</sub> per year thanks to product innovations, an efficient transport strategy and

state-of-the-art insulation systems, making a valuable contribution to protecting the environment. In addition to new containers and cabins, previously used space solutions are re-used and offered under the "TOP USED" brand.

Zinc phosphatisation and cathodic electro dip paint primer

Our contribution to social responsibility

High-quality used cabins and containers

# Development with the future in mind

"Panta rhei – everything flows!" The only constant is change! Company founder Dkfm. Franz Krauter, who would have celebrated his 100th birthday this year, was well aware of this dictum and if anything, it is even more true in this age of digitalisation.

CONTAINEX has always embraced continuous change – and that includes digital transformation. At the turn of the millennium, the CONTAINEX web-based shop went online as the company's first e-commerce solution. In the 2000s, an online configurator showed website visitors the myriad possibilities of mobile space

systems. Currently, new and innovative IT systems are being introduced. The course has been set for the further digitalisation of the company and CONTAINEX is equipped for the future.

Digitally connected in all areas

Customised planning with state-of-the-art IT systems

Together we are working on tomorrow's projects - now

"Space at once" – no matter what the future brings

## Tip

**Did you know that we offer a buy-back guarantee\* for all modular buildings as well as individual cabins and containers purchased from us?**

We are convinced of the high quality and sustainability of our products. That is why you benefit from our buy-back guarantee\* for every CONTAINEX office, sanitary or storage container you have purchased, whether new or pre-owned.

Let us advise you, or feel free to send us a buyback request at [www.containex.com/buy-back](http://www.containex.com/buy-back).

\*Buy-back guarantee applies to reusable containers and cabins in the European Union, Switzerland and the United Kingdom; limited to a maximum of 20 years. Beyond that by separate agreement.
