CONTAINEX GREEN technology guarantees the defined quality and environmental standards, according to which the supplier selection, material procurement, production and quality inspections are carried out.

- ✓ Selection and use of recyclable materials
- ✓ Energy-efficient and environmentally-friendly production in our privately owned European production plants
- ✓ CO₂ savings and low emissions of pollutants during production, transport and when using the cabins and containers
- ✓ Continuous quality inspections and environmental audits in the production plants
- ✓ Long-lasting container and cabin products – reuse instead of new production
- ✓ High-quality insulation – low energy consumption

GREEN technology stands for:

Supplier requirements:

- ✔ Certified Environmental Management Systems (eg. ISO 14001)
- ✔ Certified Quality Management Systems (eg. ISO 9001:2015)
- ✔ Re-usage/recycling of production waste

Steel:

- ✔ Free of Cr6 (chrome VI is a carcinogenic substance)
- ✔ European production

Wood:

- ✔ FSC-certified wood (no tropical wood)
- ✔ European production

Fixtures:

- ✔ Purchase from European brand manufacturers
- ✔ Energy efficient electrical equipment according to the recommended standards of the Austrian Energy Agency (AEA) and CFC-free air conditioning and cooling equipment
- ✔ Use of high-quality insulation materials

Paint:

- ✔ Modern paint facilities according to the European VOC-standard

Production:

- ✔ Waste sorting, recycling, energy recovery systems
- ✔ Working conditions with social responsibility taken into account
- ✔ Exclusively European production
- ✔ Use of the latest photovoltaic systems for power generation
- ✔ Use of modern fabrication equipment and ongoing process optimisation
- ✔ Safety management in our factories

Transport:

- ✔ Short transport routes – with more than 250 depots throughout Europe and optimum transport planning
- ✔ Reduction in transport due to combined transport and delivery as Transpack cabins as well as storage container sets
- ✔ Usage of modern, low emission trucks

Used containers and cabins:

- ✔ Buy back and sale of used CONTAINEX containers and cabins
- ✔ Reuse instead of new production thanks to durable and high-quality container and cabin products
